JB

Hi Tina,

Attached is a document with the information requested. This is based on students we have this level of information for – any entering pre- 2019, we don't really have good data for I'm afraid.

For those who came through the WS access programme, I've included the WP criteria they were accepted with, for the others we don't have that data I'm afraid.

I'll send the password in a separate email chain.

Best wishes,

Jo

Hi Jo

The latter if possible. It would be great if you could indicate which other programme they joined from.

Thanks!

Best, Tina

Hi Tina,

Are you only after those who completed the Warwick Scholars access (pre-entry) programme, or all those on the Warwick Scholars UG programme who might have joined us from other programmes? If the latter, we will not be able to let you know which WP criteria they were accepted on as we do not hold that data.

Best wishes,

Jo

**Subject:** Warwick Scholars data

Hi Cherryl

I hope you had/have a good summer.

I have a request please. Matt and I have been asked to prepare data for the inclusive education strategy. Please could we have a file with all WBS enrolled Warwick

Scholars up to now, with the following columns please?

Student number, Warwick Scholar with/without funding (i know there are some that did not receive funding, and others that do), the WP criteria on which they have been admitted. I only have Warwick Scholars up to 2020.

Sorry for the extra work, and thanks, we appreciate the help. If you are aware of another way to get the data, please let me know. We are seeking to build an system that will renew the data each year

We have cleared GDPR hurdles, so a password protected file should do.

Best wishes,  
Tina
